## Welcome to Dealer Extranet 3

- VELUX are proud to present our new re-designed online system which customers can use to order VELUX products, view and track orders and deliveries, download invoices, view and create quotations, and now create client quotations customizable with your company logo and including client discounts and delivery charges.
- Products can now be selected from a configurator, or should you already know the code of the product you require it can be typed into a search box for quick entry. It is also possible to upload orders from a .csv file which is a simple solution to speed up input of large stock orders.
- VELUX Dealer Extranet 3 (or DE3) is supported by, and optimised for use with, Windows Internet Explorer, Microsoft Edge, Google Chrome and Firefox, and we recommend these browsers for the best user experience. While not optimised for Safari or Bing our testing shows no issues with these browsers.

# Migration of Existing Users

Existing users of Dealer Extranet 2 will receive an email to let them know when they have been migrated to Dealer Extranet 3. Your username will not change. Click on the link in the email to select a new password. Skip to <u>page 8</u> for further assistance creating your password.
